Household vacuum cleaner among the champions of the world

The Nilfisk Elite is the perfect vacuum cleaner when you need strong suction, excellent filtration, very good design and user-friendly features.

Super cool machine features like the handle with remote control enables you to switch the machine on/off and adjust the suction level directly at the handle.

With the Nilfisk Elite you pick up dirty air into the vacuum cleaner and with outstanding filtration, you exhaust clean air back out. Therefore not only cleaning our floors but the air you and your family breathe as well.

The Nilfisk Elite series have been endorsed by the British Allergy Foundation with the 'Seal of Approval' for: House Dust Mite, Cat Allergen, Dog Allergen and Pollen.

Here are a few things to consider when purchasing a vacuum cleaner with an extra good HEPA filter:

- The HEPA filter should be positioned after the motor to ensure that the exhaust fan is releasing clean air
- The HEPA filter component and vacuum cleaner needs to be completely sealed so that contaminated air cannot be released into the environment. Nilfisk calls this an airtight construction

A vacuum cleaner with an extra good HEPA filter is a bit more expensive than regular vacuum cleaners, but is a good investment for anyone who cares about the quality of their home environment.

Extra high cleaning performance - Very good dust pickup on carpet and on hard floor. This performance is achieved through optimization throughout the whole machine, without compromising on energy use and performance.

Energy saving – You will save up to 50% of power usage compared to other vacuum cleaners. To make it even easier to use, we have also fitted the Nilfisk Elite with click fit in the nozzle.

If you want the best vacuum cleaner money can buy you should buy a Nilfisk Elite, because with its very good Danish design, high suction power, very good energy rating and excellent filtration you will never be disappointed.

- High dust pickup: A strong motor and a well-designed construction result in market leading dust pick up
- Allergy filtration: Ultra dust bag, airtight construction, and HEPA H14 filter stops even the tiniest particles, animal hairs, dust mites, their droppings. All Nilfisk Elite models feature this as standard
- Probably the best filtration in the world for household vacuum cleaners
- Endorsed by the British Allergy Foundation
- Energy saving
- Handle with remote control ensures on/off and adjustment of suction level directly at the handle
- Silent: down to 68 dB - is very low for household vacuum cleaners
- 5 years guarantee: The machine is built to last

Household vacuum cleaner - Danish design and quality

The Nilfisk Select is built with the environment and you in mind. Its allergy filtration, cleaning performance and ease of use mean this exceptional vacuum cleaner delivers a new standard in cleaning technology.

Cleaning performance - Very good dust pickup on carpet and hard floor. This performance is achieved through optimization throughout the whole machine, without compromising on energy use and performance.

Unique Danish design with high performance

The Nilfisk Select is built with the environment and you in mind. Its allergy filtration, cleaning performance and ease of use mean this exceptional vacuum cleaner delivers a new standard in cleaning technology.

Allergy – homes today have a high level of dust and airborne particles and allergies are becoming more and more prevalent. The Nilfisk Select reduces the dust levels in your home with efficient HEPA 13 or 14 filters. HEPA 13 filters secure cleaning without dust particles re-entering your home. For an even greater level of protection some Nilfisk Select models are equipped with a HEPA 14 filter. HEPA 13 and 14 filters are able to pick up the microscopic particles and return the filtered air to the room even cleaner than the air was to begin with.

Picture shown may not represent model quoted

Cleaning performance - Very good dust pickup on carpet and hard floor. This performance is achieved through optimization throughout the whole machine, without compromising on energy use and performance.

Energy saving – You will save up to 50% of power usage compared to other vacuum cleaners.

Smaller for easy storage – we’ve made the Nilfisk Select small enough to store easily whilst still retaining all the latest features you would expect from a larger vacuum cleaner. The Nilfisk Select Superior is fitted with a remote control handle with adjustable suction levels, and on/off functionality - makes using the Nilfisk Select a breeze.

To make it even easier to use, we have also fitted the Nilfisk Select with click fit in the nozzle.

So breathe easy with the Nilfisk Select

- The Nilfisk Select is built with the environment and you in mind. Its allergy filtration, cleaning performance and ease of use mean this exceptional vacuum cleaner delivers a new standard in cleaning technology
- Nilfisk Select is the embodiment of design and functionality. A good looking, easy to use and on-board tools at hand when you need them
- Low sound level
- Extra high cleaning performance - very good dust pickup on carpet and on hard floor
- The Nilfisk Select comes with a 5 year guarantee
- Nilfisk Select machines with a 650W or 450W motor. The Select use only 50% energy whilst maintaining the performance compared to other vacuum cleaners
- The whole Nilfisk Select machine is extra HEPA tight with dust proof gaskets - so dirt comes into the machine and clean air comes out

Family-friendly dust-eater – ideal with kids and pets in the house

Active middle sized families with kids and pets in the house are going to applaud the Nilfisk Bravo. So what if the kids have friends over and they are nibbling biscuits all over your floor and sofa, with its XL dust bag and powerful suction Nilfisk Bravo gets the job done quickly and conveniently.

One of the variants has a blow function for inflating airbeds or removing fluff from behind radiators or other difficult to reach areas.

Active middle sized families with kids and pets in the house are going to applaud the Nilfisk Bravo. So what if the kids have friends over and they are nibbling biscuits all over your floor and sofa, with its XL dust bag and powerful suction Nilfisk Bravo gets the job done quickly and conveniently.

One of the variants has a blow function for inflating airbeds or removing fluff from behind radiators or other difficult to reach areas.

- Good dust pick up on hard floor and on carpet
- Convenient XL dust bag for extra mileage between dust bag changes
- Blow function for inflating airbeds or removing fluff from behind radiators or other difficult to reach areas
- Nilfisk quality - strong suction and excellent cleaning result with an EPA filter
- Easy to store

Nilfisk One is a small & handy vacuumer and is therefore perfect for small places and confined spaces.

The Nilfisk One is built with you in mind. All models are fitted with our very good storability solution. The Nilfisk One is a small & handy vacuum cleaner and is therefore perfect for small places and confined spaces. To make it even easier to use, we have also fitted the Nilfisk One with click fit in the nozzle. Very good energy ratings for its size

Are you living in a smaller apartment or have a need for a second vacuum cleaner, this is the machine for you!

Nilfisk One Series - designed with today's living in mind

The Nilfisk One range has been designed with today's living in mind. It's compact for easy storage without compromising on performance, manoeuvrability or style.

Living spaces today are becoming smaller and this means space is more precious; Nilfisk have designed the One Series with this thought in mind. The smaller design means easy storage in any living situation, along with a specially designed storage belt that enables the hose to be held in place when wrapped around the vacuum.

You'll also spend less time cleaning with a machine that provides all the performance of dust pick up that most would expect to be achieved by only larger vacuum cleaners. You can effortlessly adjust the motor speed to meet your specific cleaning task, and with handy on-board accessories, easy manoeuvrability and a dust bag full indicator showing you when to change the bag, cleaning could not be made easier.

Picture shown may not represent model quoted

As you would expect, the performance and energy ratings from the new Nilfisk One products are second to none:

- EPA 10 through to HEPA 14 filters giving the clean exhaust air
- Good dust pick up on Carpet and on Hard flooring
- Low energy usage with a 750 watt or 450 watt motor and minimum 500 hours lifetime
- On top of all that you can choose a lot of different colors that match your décor.

The Nilfisk One series of vacuum cleaners is another example of quality engineering and modern features that Nilfisk are renowned for.

- Storability - No problems getting this small vacuum into a storage solution. Just wrap the hose around the machine and away it goes into storage
- Small & Handy - High maneuverability and easy access to confined spaces
- Cleaning performance - Good dust pickup on carpet and on hard floor
- Nilfisk quality - Strong suction and excellent cleaning result with an EPA or HEPA filter
- Very good energy ratings for its size

All-purpose vacuum cleaner with huge work capacity

The Nilfisk GM 80C is the symbols of Nilfisk quality and reflects elegance, solidity, durability, high performance and many years of efficient cleaning.

The Nilfisk GM 80C is vacuum cleaner for people needing great suction power and ease of use in small or medium size households.

GM 80C is light in weight, but heavy-duty performer. Mounted on a strong steel trolley with large rubber wheel, the machine is easy to manoeuvre.

One of the variants has a blow function for inflating airbeds or removing fluff from behind radiators or other difficult to reach areas.

The vacuum cleaner has a unique retro design.
The Nilfisk GM 80C is the symbols of Nilfisk quality and reflects elegance, solidity, durability, high performance and many years of efficient cleaning.

The Nilfisk GM 80C is a vacuum cleaner for people needing great suction power and ease of use in small or medium size households.

GM 80C is light in weight, but heavy-duty performer. Mounted on a strong steel trolley with large rubber wheel, the machine is easy to manoeuvre.

Picture shown may not represent model quoted

One of the variants has a blow function for inflating airbeds or removing fluff from behind radiators or other difficult to reach areas.
The vacuum cleaner has a unique retro design.

- High suction
- Very good filtration, with unique filter shaking system
- Low noise
- Good dust pick up on carpet and on hard floor
- One of the variants has a blow function for inflating airbeds or removing fluff from behind radiators or other difficult to reach areas
- Solid long lasting construction and design

All-purpose vacuum cleaner - huge work capacity and excellent filtration

Designed for large families who need a new high performance vacuum cleaner, Nilfisk Family can cope with the heavy jobs.

Enjoy the user friendly design with smart parking of accessories for better ergonomics.

Low sound level makes the machine ideal for cleaning without getting bothered by the sound.

HEPA filter is standard to ensure a clean home.

Huge dust bag, which mean you do not have to empty the dust bag as often compared to other vacuum cleaners.

The Nilfisk Family vacuum cleaner is an innovative vacuum cleaning solution for lager household. Enjoy the user friendly design with smart parking of accessories for better ergonomics.

The low sound level makes the machine one of the most quiet and environmentally friendly vacuum cleaners in the market.

HEPA filter is standard to ensure a clean environment.

Picture shown may not represent model quoted

Huge dust bag, which mean you do not have to empty the dust bag as often compared to other vacuum cleaners.

- Good dust pick up on carpet and on hard floor
- HEPA exhaust filter as standard
- Magnetic closing of dust compartment securing high reliability
