## Bagless vacuum cleaner – excellent suction power and filtration

Nilfisk Meteor is great for those who are looking for a vacuum cleaner with strong suction, who want to run without a dust bag and want to see the dust and dirt that comes out of their carpets.

Nilfisk Meteor with bagless technology is a very user friendly vacuum cleaner with a large 2.5 l transparent dust container that is easy to empty. Combined with a strong 800W motor, the Meteor provides you with a good cleaning result as it is strong enough to get the dust up effortlessly. Including a HEPA 13 or 14 filter for better filtration, dirt comes in and clean air comes out of the vacuum cleaner. As bonus, you get extra nozzles and accessories useful for e.g. in-depth cleaning of carpets, removal of pet hairs and for smooth cleaning on hard floors.

- Bagless technology, easy of use
- Strong suction - 800W motor
- HEPA 13 or 14 filter - clean exhaust air
- 3 pcs. of accessories
- Can have extra nozzles depending on the variant
