Nilfisk Performer 150, High Performance, wireless technology

- Convenient, plug the hose into the wall inlet and start.
- Good indoor climate, the exhaust air is lead outside the house.
- Low noise, only from the air through the nozzle.
- Easy to install.
- High suction power
- Good looking design and high quality

High performance in houses up tp 150 sqm.

This machine gives you the performance you need in houses up to 150 sqm, or a pipe line on maximum 30 meters.

All Nilfisk central vacuum cleaners have wireless technology, so that they can be fittet with the hose of your choice.

This produkt is only a machine. If you need a complete installation kit look for All-in-1 Supreme 100, or buy pipes, fitting and hosekit seperately.

Central vacuum cleaners Performer

Imagine a vacuum cleaner that is easy to use, highly efficient and almost silent; one that you don't have to carry upstairs; won't bump into the furniture or walls, get stuck in corners and that expels it's exhaust air outdoors.

It does exist - the Nilfisk central vacuum cleaner.

The concept is simple: Plug the flexible hose into the wall inlet, start vacuuming and focus on the cleaning task, not balancing and weight lifting. The dust is brought through the pipes to a bag or container in the central vacuum cleaner, located in the garage, basement or attic. The exhaust air is lead outside the house.

Choose from different hose:

Manual handle

The vacuum cleaner starts and stops automatically when the hose is connected to an inlet. No control features available.

Wireless+ handle

The handle with LED display is provides information by flashing when something is wrong or needs to be done - such as: empty dust bag, clean filter, airflow blocked, overload, service needed, etc. The differnt flashing signals are coded messages that are explained in the user manual.

Deluxe handle

The LCD handel is equipped with a display, providing direct information about various situations: when it is time to empty the dust bag or clean the filter, when the airflow is blocked or service is needed, in case of overheating or out-of-range; plus it has a 5-speed suction power level. The Deluxe hose also has a battery level indicator.

- Amazing cleaning performance improves the indoor climate
- Works very quietly with out cutting you off from the life around you
- Lightweight and easy to handle - for improved working conditions
- Powerful and extremely efficient suction attacks pet hair effectively
- A clever precaution against asthma, eczema, and other allergies
- Manges stairs without any inconveniense for you

- Standard equipment

For apartments and small houses up to 100 sqm

Vacuum cleaning the easy way

A central vacuum cleaner does just that. It is extremely quiet, odour free, lightweight and handy, turning a repetitive domestic chore into an agreeable easy-to-do job. With the central power unit (combined motor and dust container) stowed away on the loft, in the basement, or in some remote location where it bothers no one, it is out of the way, and the only thing you need to carry around when vacuuming is the hose itself. A clever precaution against asthma, eczema and other allergies as all dust pick up is directed out of the rooms through the sealed tubes.

If you need a machine that takes up little space, this is the one to choose. It offers you the performance needed in houses up to 100 sqm, or a pipe line of maximum 30 meters.

All Nilfisk central vacuum cleaners have wireless technology, so that they can be equipped with your choice of hose.

This product is only a machine, if needed, remember to buy fitting and hose kit separately

- Can be used with or without a bag
- Dust container with cyclone system
- Low working sound
- The central unit is equipped with start/stop function
- Build in soft start system
- The build in sack filter is self-cleaning through the movement when the central units starts / stops

All-in1 Central Vacuum Cleaners – clear air, low noise, high suction power

Vacuum cleaning the easy way A central vacuum cleaner does just that. It is extremely quiet, odour free, lightweight and handy, turning a repetitive domestic chore into an agreeable easy-to-do job. With the central power unit (combined motor and dust container) stowed away on the loft, in the basement, or in some remote location where it bothers no one, it is out of the way, and the only thing you need to carry around when vacuuming is the hose itself. A clever precaution against asthma, eczema and other allergies as all dust pick up is directed out of the rooms through the sealed tubes.

The 'All-in-1' boxes from Nilfisk contain everything you need for installation of a central vacuum cleaner in old houses as in new-build.

With a convenient number of wall inlet valves installed throughout your home you can move the hose from inlet to inlet so as to cover the entire area of your home. The inlet valves as connected to the power unit through tubing. The tubes transport the dirt to the central dust container, and you never have to deal with it except once or twice a year when the container needs emptying. It is an extremely convenient, hygienic and flexible system that is adaptable o homes of all sizes, houses and apartments alike.

Choose from different models of Nilfisk Supreme All-in-1:

For houses up to 150 sqm.

- Nilfisk Supreme 150 All-in-1 Manual handle
- Nilfisk Supreme 150 All-in-1 Wireless+ handle
- Nilfisk Supreme 150 All-in-1 Deluxe handle

For houses up to 250 sqm.

- Nilfisk Supreme 250 All-in-1 Manual handle
- Nilfisk Supreme 250 All-in-1 Wireless+ handle
- Nilfisk Supreme 250 All-in-1 Deluxe handle

For houses up to 500 sqm.

- Nilfisk Supreme LCD All-in-1 Wireless+ handle
- Nilfisk Supreme LCD All-in-1 Deluxe handle

- Can be used with or without a bag
- Dust container with cyclone system
- Low working sound
- The build in sack filter is self-cleaning through the movement when the central units starts / stops
- The central unit is equipped with start stop function
- Build in soft start system
- Soft grip on bend end for user convenience
- Manual hose kit (depending on model): The central unit starts with the hose is connected to wall inlet and stops when removed.
- Wireless+ hose kit (depending on model) - Wireless operation of central unit: Start/stop at handle, regulation through 5-speed / suction power levels, LED display returns with information on a) Empty dust bag, b) Blocked airflow c) Other issues that needs service
- Deluxe wireless hose kit (depending on model) – wireless operation of central unit: Start/stop at handle, regulation through 5-speed / suction power levels, LCD info display with information on a a) Empty dust bag, b) Blocked airflow c) Issues that needs service d) Overheat indicator symbols if the power has become overheated. E) Signal indicator. Flashes if the bend end is our reach from the central unit f) Battery level of bend end.

Nilfisk Central Vacs. For houses up to 500 sqm.

Vacuum cleaning the easy way

A central vacuum cleaner does just that. It is extremely quiet, odour free, lightweight and handy, turning a repetitive domestic chore into an agreeable easy-to-do job. With the central power unit (combined motor and dust container) stowed away on the loft, in the basement, or in some remote location where it bothers no one, it is out of the way, and the only thing you need to carry around when vacuuming is the hose itself. A clever precaution against asthma, eczema and other allergies as all dust pick up is directed out of the rooms through the sealed tubes.

High performance in houses up to 500 sqm

Nilfisk Supreme LCD is a central power unit with a LCD info center display, where information on status of the machine performance is displayed.

All Nilfisk central vacuum cleaners have wireless technology, so that they can be equipped with your choice of hose.

This product is only a machine, if needed, remember to buy fitting and hose kit separately

- LCD info center on the machine, where information on:
 - Indicator for dust bag / filter change,
 - suction level,
 - indicator for service needed,
 - indicator for overheated product,
 - indicator for reduced airflow,
 - indicator for handle is out of reach
- Can be used with or without a bag
- Dust container with cyclone system
- Low working sound
- The central unit is equipped with start stop function
- Build in soft start system
- The build in sack filter is self-cleaning through the movement, when the central units starts / stops

Central vacuum cleaners - all in one box, install in one weekend

Vacuum cleaning the easy way A central vacuum cleaner does just that. It is extremely quiet, odour free, lightweight and handy, turning a repetitive domestic chore into an agreeable easy-to-do job. With the central power unit (combined motor and dust container) stowed away on the loft, in the basement, or in some remote location where it bothers no one, it is out of the way, and the only thing you need to carry around when vacuuming is the hose itself. A clever precaution against asthma, eczema and other allergies as all dust pick up is directed out of the rooms through the sealed tubes.

To make the installation more convenient, kits are designed to fulfill what is needed for a normal house.

Do-It-Yourself (DIY) 'All-in-1' boxes from Nilfisk contain everything you need for installation in most houses. But naturally, you can also purchase pipes, elbows and inlets separately. Installation can be done in only one weekend.

Nilfisk Performer DIY All-in-1 is a practical solution and is suitable for most homes. The hose is 9 meters and covers approx. 90 sqm. You can choose between a Manual, Wireless + or Deluxe hose. The new and powerful Nilfisk Performer gives you constant suction, and with the innovative Deluxe model the control of vacuumcleaning are right at the fingertips. For further detail and overview of features see table below.

Choose from different models of Nilfisk Performer DIY All-in-1:

For houses up to 150 sqm.

Nilfisk Supreme 150 All-in-1 Manual handle

Nilfisk Supreme 150 All-in-1 Wireless+ handle

Nilfisk Supreme 150 All-in-1 Deluxe handle

For houses up to 250 sqm.

Nilfisk Supreme 250 All-in-1 Manual handle

Nilfisk Supreme 250 All-in-1 Wireless+ handle

Nilfisk Supreme 250 All-in-1 Deluxe handle

For houses up to 500 sqm.

Nilfisk Supreme LCD All-in-1 Wireless+ handle

Nilfisk Supreme LCD All-in-1 Deluxe handle

The 'All-in-1' boxes from Nilfisk contain everything you need for installation of a central vacuum cleaner in old houses as in new-build.

Picture shown may not represent model quoted

- Can be used with or without a bag
- Dust container with cyclone system
- Low working sound
- The built in sack filter is self-cleaning through the movement when the central units starts / stops
- The central unit is equipped with start stop function
- Soft grip on bend end for user convenience
- Manual hose kit (depending on model): The central unit starts with the hose is connected to wall inlet and stops when removed.
- Wireless+ hose kit (depending on model) - Wireless operation of central unit: Start/stop at handle, regulation through 5-speed / suction power levels, LED display returns with information on a) Empty dust bag, b) Blocked airflow c) Other issues that needs service
- Deluxe wireless hose kit (depending on model) – wireless operation of central unit: Start/stop at handle, regulation through 5-speed / suction power levels, LCD info display with information on a a) Empty dust bag, b) Blocked airflow c) Issues that needs service d) Overheat indicator symbols if the power has become overheated. E) Signal indicator. Flashes if the bend end is out of reach from the central unit f) Battery level of bend end.
